## APPROACH

*Rough design on paper combined with  
spontaneous experimental testing  
of materials and coloured glazes is the  
start of a final concept. Based on  
graphical and ceramic experience  
a final form is created.*

*I want to charm people with my ceramic  
by forms that asks to be touched,  
carefully chosen colours and a fine  
craftmanship with an own signature.*

*Ceramic bowls to use and to enjoy!*
